EXPERIENCE

Sterling Bank Plc, Nigeria — *Frontend Developer*
February 2022 - November 2022

- Worked in an Agile environment and collaborated with team mates across various groups to achieve our goal.
- Led the frontend team of the loan application solutions.
- Re-configured loan processing for SMEs, increasing efficiency.
- Expanded scope of major bank web application, reducing customer churn.
- Worked closely with product, design, business and development team to scope and create usable, responsive and interactive interfaces across multiple devices.
- Monitored websites' performance and rectifying front-end-related issues to ensure smooth user experience.
- Developed an upgraded version of the web application for online banking, resulting in an increase in customer satisfaction.
- Played major roles in the implementation of a new upgraded system for online banking used by customers, which increased efficiency by a large percentage.

Outfit.NG, Lagos — *Frontend Developer*
February 2021- February 2022

- Contributed to the in-house UI library to create reusable components that saved over 200 hours of development time per month.
- Developed a web app for a hospital management system platform with 100+ hospital administrations to create, manage, and monitor patients and available services and resources rendered by the hospital using Vue and Vuex.
- Added new features to a savings application with monthly active users enabling the users save money based on target approach or fixed saving.
- Developed admin system for savings application, enabling admins to track total savings & number of customers using the system.
- Deployed new features to facilitate related procedures & tools if necessary.
